hi there,

We're so glad you're browsing through our new brochure - full of inspiration from our latest swimwear collection. As always, every item has been designed with love and care. Enjoy the little things is our tagline. But it's much more than just a line under our logo. It's a feeling that shapes everything we do, create and imagine at Little Dutch.

This collection was born from that same idea. Every piece begins with a concept. Nothing ends up in the collection by chance. We think carefully about quality, about how a fabric feels, and - most importantly - about the children who will wear it.

A print only works if it sparks the imagination. A swimsuit isn't complete without a playful detail like a ruffle or an open back. Swimwear should look good on a towel in the shade, but also when wet. That's why we work with quick-dry fabrics. We've designed easy-to-combine sets so there's always a clean shirt or pair of shorts ready - because we know all too well how messy playtime at the beach can get. But that doesn't mean you can't look great. We believe you should never have to choose between style and practicality.

In the end, it's the children who bring this collection to life. They splash endlessly in our swim trunks, explore the underwater world in our swimsuits, and take our towels along on their summer adventures.

Ready for sunshine, splashes, and every little adventure in between.

Enjoy our new Swim Collection 2026!

sustainability and safety

Sustainability and safety are very important to us. That's why most of our products are made of organic cotton. Other products are made of recycled polyester or natural materials like viscose or lyocell.

Oeko-Tex

We believe it is important to deliver high-quality, safe products. That's why all of our clothing items are OEKO-TEX certified. OEKO-TEX is a health label for textiles, referring to the safety of the fabrics and other materials used.

If a product has the OEKO-TEX STANDARD 100 label, you can rest assured that every last part of this product, every single thread, button or other accessory, was tested for harmful substances and found harmless to human health.
